

Radio stations such as Air1 and KLOVE have been much more than just a broadcaster talking or listening to music. They have helped many organizations such as the Rescue Mission. Which supports many of Americas homeless. They have helped organizations such as those that were involved in the aftermath of Hurricane Katrina. KLOVE and AIR1 are twin pillars that give people of all races and circumstances hope and support. They are staffed to help people in any situation in their lives and they have helped other organizations that keep teens and unstable adults off the streets and into better lifestyles.

Americans have always been entitled to free speech and freedom of choice. By approving the proposed rule changes, you are taking away that freedom that so many have fought and died for us to have. Having radio stations such as Air1 and KLOVE have been an inspiration to many people and continue to be and inspiration and source of help and hope for many more. Don't take away the freedom that gives us the choice to listen to what keeps us strong. Setting those rules and boundries would be taking away our freedom. Our freedom of speech and choice. I pray that God will give you the foresight and compassion to see how much people NEED the radio stations that you would be forcing out of our lives.
